

## Alisha Diaz, PA-C

Originally from San Antonio, Alisha received her Bachelor of Arts degree in Psychology from Southern Methodist University in Dallas, TX followed by a Master of Science degree in Physician Assistant Studies from the University of St. Francis in Albuquerque, NM.

Prior to joining TRAAC, Alisha practiced in San Antonio specializing in allergy, asthma, and immunology. She was there for two years until she decided to move back to Dallas, TX where she calls home.

Alisha is certified by the National Commission on Certification of Physician Assistants. She is a member of organizations such as the American Academy of PAs (AAPA) and Association of PAs in Allergy, Asthma, & Immunology (APAAAI), and she was previously Secretary of the Bexar County Physician Assistant Society.

She has published an abstract on Dupilumab for Treatment of Severe Atopic Dermatitis in Children Under Six Years, which included an e-poster presentation at the American College of Allergy, Asthma, and Immunology 2020 Annual Scientific Meeting. She has served on two advisory boards.

In her free time, she enjoys traveling, spending time with family, long walks, and exploring new restaurants.
